DETAILED ACTION

1. According to a preliminary amendment filed on March 15, 2004, the applicants have canceled claims 3 and 5 and furthermore, have amended claims 1, 4, 8, 9, 11, 13, 15 and 17.

2. Claims 1, 2, 4 and 6-18 are now pending in the application.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 17 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 17 and 18, the term ---prophylaxis---is indefinite since it is not clear how the instant compounds having inhibitory activity against DPP-IV will be able to prevent diabetes or non-insulin dependent diabetes mellitus where GLP-1 (stimulator of insulin release) is not involved in the etiology of diabetes. The applicants are suggested to delete this term. Also, the applicants are suggested to include the term ---therapeutically effective amount of --- before --- a compound ---in last line.

5. Claim 2 recites the limitation "aryl and substituted aryl for variable R1" in claim 1.

There is insufficient antecedent basis for this limitation in the claim.

6. Claim 14 recites the limitation "Phenyl for variable R1 (see last compound)" in claim

1. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 1625

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1, 2, 4, 6, 8-14 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Hirotohi (JP 11230910, cited on applicants form 1449) as well as by compounds listed in citation no. C11, cited on applicants form 1449).

The benzo[a]quinolizin-2-amine compounds (RN 39630-39-2, RN 39630-42-7, RN 109964-42-3 and RN 96614-27-6) anticipate the instant claims when R1 represents methyl, ethyl or isobutyl group and both R2 and R3 represent methoxy groups in the instant compounds of formula (I).

Allowable Subject Matter

8. Claims 7 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charanjit S. Aulakh whose telephone number is (571)272-0678. The examiner can normally be reached on Monday through Friday, 8:30 A.M. to 5:00 P.M..
